

Third Annual Meeting of Kazakh Physical Society

National Nuclear Center of the Republic of Kazakhstan,
June 10–13, 2020, Kurchatov

The National Nuclear Center of RK (NNC RK, www.nnc.kz) is pleased to announce that the Third Annual Meeting of Kazakh Physical Society will take place in Kurchatov town, East-Kazakhstan Region.

NNC RK is one of the leading enterprises of Kazakhstan dealing with issues in the area of peaceful exploitation of nuclear energy. The history of NNC RK establishment is associated with one of the important historical events of the 20th century, when the Semipalatinsk Nuclear Test Site was closed on August 29, 1991 by the Decree of Nursultan Nazarbayev, first President of the Republic of Kazakhstan. Scientific and technical potential and unique experimental capabilities enabled NNC RK, in close cooperation with international partners, to successfully solve a challenging set of problems on nuclear weapon testing infrastructure utilization, and to smoothly transform its scientific-technical and technological basis for nuclear power development in the Republic of Kazakhstan.

The Third Annual Meeting of the Kazakh Physical Society (KPS) is intended to provide a unique platform for communication, exchange, and coordination between scientists of the Republic of Kazakhstan, undertaking active research in various fields of physics and related sciences. The Meeting will collectively establish and support the high and internationally recognized standards of physics research in the country by facilitating national and international collaboration among physicists and promoting values of science and technology among general population and especially junior researchers in Kazakhstan.

- The KPS Annual Meeting consists of *plenary, invited, regular, and poster presentations* on all topics of physical sciences.
- All presentations at the conference are obligatory to stem from the results of articles published in the last 3 years in the journals indexed by either *Web of Science* or *Scopus* databases. A submitted abstract to the conference should fit one A4 page, including title, author names, affiliations, main text and references, possible single figure, and a mandatory reference to the original article, on which the presentation is based, with the publication year 2017–2020.
